

MICHAEL DA SILVA

SOFTWARE DEVELOPER

ABOUT ME

Innovative Full-Stack Software Developer with 7+ years of experience designing and optimizing scalable web applications. Expertise in JavaScript, Ruby, PHP, Node.js, SQL, and cloud computing. Passionate about building user-centric digital experiences, integrating modern APIs, and enhancing performance with cutting-edge technologies. Adept at leading development teams, collaborating with stakeholders, and delivering high-impact solutions in fast-paced environments.

EXPERIENCE

Freelance Full-Stack Developer

2014 - Present

- Developed dynamic web applications with React, Next.js, and TypeScript, optimized system performance, and provided consulting services, improving load times by 40%.

Full-Stack Engineer

Dyverse, July 2022 - Aug 2024

- Engineered high-performance web applications with Ruby on Rails, JavaScript, and MySQL.
- Integrated Google Business, Google Ads, and Chatmeter APIs for automation
- Managed cloud infrastructure and CI/CD pipelines to streamline deployments.
- Led a team of developers to enhance product scalability and security.

EDUCATION

Bachelor of Science in Information Technology

NUC University, Florida Technical
College
2012-2016
